VSM Product Range 2022/2023

At one glance – The VSM information system

All product details at one glance

Series: **XK870F** (TOP SIZE)

Backing flexibility (here: very sturdy, please refer to page 27 for more details)

Additional grinding-active layer (here: VSM TOP SIZE, please refer to page 31 for more details)

VSM CERAMICS

Product profile

Bonding	Full-resin coated
Colour	Red
Backing	F-Cotton
Flexibility	Very flexible

Materials

- Stainless steel
- Super alloys
- Unalloyed steel
- Aluminium
- Non-ferrous metals
- Composite

Features

- Low to medium pressure
- Medium coated

Machine/Grinding application

Grain type

Developed for... (ordered by suitability)

Also suitable for... (ordered by suitability)

Ceramic grain abrasive with self-sharpening effect on a very flexible cloth backing, impresses when machining extremely hard surfaces due to its aggressive cut and an extremely long service life.

Grit range:

16 20 24 30 36 40 50 60 80 100 120 150 180 220 240 280 320 360 400 500 600 800 1000 1200

Table:

Art.-No.	Belt joint	Width (mm) <input checked="" type="checkbox"/>	Length (mm)	Grit	Type	PU	Sales Unit
784111	E07	40	760	60	L	20	20
716552	E07	40	760	80	L	20	20
763246	E07	40	760	100	F	20	60
716563	E07	40	760	120	L	20	20
707515	F07	40	760	150	F	20	60
718695	E07	40	760	180	F	20	60

Product application

General safeguard provisions

The pictograms with FEPA safety recommendations* are guidelines for the correct use of coated abrasives. It is in the interest of your own safety to comply with these guidelines. In addition, compliance with these guidelines ensures full performance of the abrasive.

Wear eye protection

Wear a mask

Wear ear protection

Wear protective gloves

Refer to instruction manual

Do not use if damaged

Only permitted for grinding at an angle > 10°

Only to be used with a back-up pad

Do not use for wet grinding

*The FEPA safety recommendations are published on our website. Visit us at www.vsmabrasives.com/service/downloads.
